Customer Display/ Pole Display/ Line Display	PD3000	Not required	46B-RCRJ-PD3
Cash drawer	Epson printer compatible	Not required (Printer Driven)	49-CDR400J

Printer Setup (S-Line or ST-EP4 USB)

- 1. After installing the Windows drivers for your ST-EP4 printer, open your PC America program (CRE or RPE). Click on the **MANAGER** button at the top right corner.
- 2. After logging in with your account information, click on the green **Setup** tab then click on **Friendly Printer Setup**
- Set the (1) Receipt printer to the (2a) ST-EP4 or (2b) EPSON BA-T500 (S-Line) Printer. Make sure you select (3) Epson Thermal Receipt Printer in the dropdown menu. Then click (4) Save & Exit.

Barcode Settings (will make receipts print scannable barcodes at the bottom)

- 1. Go to Control Panel and click on View devices and printers.
- Right click the receipt printer you have installed (Epson or ST-EP4) and click **Printing Preferences**. Click on the Barcode tab and select (1) Barcode4 in the Font Name
 dropdown. Make sure (2) Code39 is selected under Barcode4 Type then click the (3)

Advanced button.

Cash Drawer & Customer/Pole/Line Display Setup

- 1. From the home screen of CRE or RPE, click on the **Manager** button and login. Then go to the **Setup** tab and click on **Setup Screen**
- Click on the Hardware tab and confirm that the (1) Pole Display Port is set to COM1 and the (2) Pole Display Type is set to General. Next, set the (3) Cash Drawer option to (4) Open Default Drawer. Then set the Default Cash Drawer Port to USB Receipt Printer. Click (5) Update to save your changes.
- 3. Under Pole Display Port, click on the COM port the display is attached to (COM1 in example)
